American Dreams Nov 19 2021 A powerful, moving collection of 170 portraits of Americans and their handwritten statements about what the American dream means to them. Shot by one photographer over twelve years, fifty states, and eighty thousand miles, *American Dreams* is a poignant, defining look at people from every walk of life and a remarkable exploration of what it means to be an American. Long fascinated by the idea of the "American Dream," Canadian photographer Ian Brown set out to document, in photographs and words, what that dream means to Americans of all ages, races, identities, classes, religions, and ideologies. Over the course of twelve years, Brown traveled more than eighty thousand miles in an old truck, visiting all fifty states and connecting with hundreds of Americans. He knocked on people's doors; met them at town halls, diners, and factories; and approached them on main streets in small towns. He shot their portraits and asked them to write down their own American dreams. Their dreams and stories—which range from hopeful, moving, and optimistic to defiant, bitter, and heartbreaking—offer a fascinating, unparalleled perspective of the striking diversity and deep nuance of the American experience.

Behold, America Jun 26 2022 A Smithsonian Magazine Best History Book of 2018 The unknown history of two ideas crucial to the struggle over

what America stands for In *Behold, America*, Sarah Churchwell offers a surprising account of twentieth-century Americans' fierce battle for the nation's soul. It follows the stories of two phrases--the "American dream" and "America First"--that once embodied opposing visions for America. Starting as a Republican motto before becoming a hugely influential isolationist slogan during World War I, America First was always closely linked with authoritarianism and white supremacy. The American dream, meanwhile, initially represented a broad vision of democratic and economic equality. Churchwell traces these notions through the 1920s boom, the Depression, and the rise of fascism at home and abroad, laying bare the persistent appeal of demagoguery in America and showing us how it was resisted. At a time when many ask what America's future holds, *Behold, America* is a revelatory, unvarnished portrait of where we have been.

Life Could be a Dream Aug 29 2022 The summer of 1954 begins a pivotal year in nine-year-old Robby Barnaby's life. On the last day of school, he breaks his arm sliding into home plate while playing for the fifth graders in an all-star game against the sixth graders. Baseball is his passion, and Robby excels at it, though he is younger than his classmates. He lives in a new suburb of Los Angeles called Watertown, an idyllic childhood spot with open fields and well-equipped schoolyards. He and his older brother Cyrus are entrepreneurs, trading coins and selling newspapers. In addition, he works for his teacher, Miss Oliver. He has two younger brothers, six-year-old Stanley, who is frail and sickly, and Glyndon, who turns four in December. On their annual vacation on Balboa Island, he learns his family is moving to a city across L.A. that offers little for kids to do. Before the move, his mother dies from surgery, leaving him in the care of his abusive father. Everything in life has become so unreal that Robby dreams of his dead mother. Miss Oliver offers to adopt him, but his father refuses. His new home is a chicken ranch in Orcutt Park, a town with no baseball and a brutal junior high. Robby and Cyrus are miserable, and their younger brothers are lost without their mom. What will happen to these boys?

Fifty Cents and a Dream Jul 28 2022 Booker dreamed of making friends with words, setting free the secrets that lived in books. Born into slavery, young Booker T. Washington could only dream of learning to read and write. After emancipation, Booker began a five-hundred-mile journey, mostly on foot, to Hampton Institute, taking his first of many steps towards a college degree. When he arrived, he had just fifty cents in his pocket and a dream about to come true. The young slave who once waited outside of the schoolhouse would one day become a legendary educator of freedmen. Award-winning artist Bryan Collier captures the hardship and the spirit of one of the most inspiring figures in American history, bringing to life Booker T. Washington's journey to learn, to read, and to realize a dream.

Other Things May 02 2020 From the pencil to the puppet to the drone—the humanities and the social sciences continue to ride a wave of interest in material culture and the world of things. How should we understand the force and figure of that wave as it shapes different disciplines? Other Things explores this question by considering a wide assortment of objects—from beach glass to cell phones, sneakers to skyscrapers—that have fascinated a range of writers and artists, including Virginia Woolf, Man Ray, Spike Lee, and Don DeLillo. The book ranges across the literary, visual, and plastic arts to depict the curious lives of things. Beginning with Achilles's Shield, then tracking the object/thing distinction as it appears in the work of Martin Heidegger and Jacques Lacan, Bill Brown ultimately focuses on the thingness disclosed by specific literary and artistic works. Combining

history and literature, criticism and theory, *Other Things* provides a new way of understanding the inanimate object world and the place of the human within it, encouraging us to think anew about what we mean by materiality itself.

Golden Dreams Apr 24 2022 A narrative tour de force that combines wide-ranging scholarship with captivating prose, Kevin Starr's acclaimed multi-volume *Americans and the California Dream* is an unparalleled work of cultural history. In this volume, Starr covers the crucial postwar period--1950 to 1963--when the California we know today first burst into prominence. Starr brilliantly illuminates the dominant economic, social, and cultural forces in California in these pivotal years. In a powerful blend of telling events, colorful personalities, and insightful analyses, Starr examines such issues as the overnight creation of the postwar California suburb, the rise of Los Angeles as Super City, the reluctant emergence of San Diego as one of the largest cities in the nation, and the decline of political centrism. He explores the Silent Generation and the emergent Boomer youth cult, the Beats and the Hollywood "Rat Pack," the pervasive influence of Zen Buddhism and other Asian traditions in art and design, the rise of the University of California and the emergence of California itself as a utopia of higher education, the cooling of West Coast jazz, freeway and water projects of heroic magnitude, outdoor life and the beginnings of the environmental movement. More broadly, he shows how California not only became the most populous state in the Union, but in fact evolved into a mega-state en route to becoming the global commonwealth it is today. *Golden Dreams* continues an epic series that has been widely recognized for its signal contribution to the history of American culture in California. It is a book that transcends its stated subject to offer a wealth of insight into the growth of the Sun Belt and the West and indeed the dramatic transformation of America itself in these pivotal years following the Second World War.

Back to the Fifties Feb 20 2022 'Back to the Fifties' examines the explosion of Fifties nostalgia in Hollywood film and popular music from the early 1970s to the late 1980s. It both complicates and transcends standard diagnoses of the political function of nostalgia in popular media, and sheds new light on a crucial and underexamined period in American politics and culture. By closely examining the ways that 'the Fifties' were remade and recalled in films and in pop music, the book notes the importance of 'the Fifties' to a generation of Americans and explores the ways popular culture facilitates cultural memory.

Sellers of Dreams Oct 07 2020 From the latter part of the 19th century there was a fever of experiment resulting in the development of what were to become brand-named beauty products. Some manufacturers were generally interested in producing 'healthy' products that could beautify without harming; others were chancers climbing on the band wagon. Most beauty product manufacturers started with one or two specialised products - for the hair or nails or skin - but eventually all involved in the beauty industry seemed to be selling everything - from lipsticks to false eye lashes; minnows in the industry were swallowed up by whales. Advertising for beauty products moved with social trends - from flapper girl to Carnaby Street Twiggy lookalikes. Gullible consumers were offered solutions to achieving their dreams - to look forever young, to attract attention, to land Mr. or Mrs. Right. *Sellers of Dreams* charts the advertiser's skills in promising dreams would come true.

How to Stitch an American Dream Jan 10 2021 Faith, family, hard work, and second chances are at the core of every great American story, and Jenny Doan's story is just that. In her new memoir, *How to Stitch an American Dream*, readers will discover the behind-the-scenes success story of the

Missouri Star Quilt Company and Jenny's remarkable journey to overcome hardship, claim the abundance of family, and ignite the power of giving—all while revitalizing a small town along the way. Over the last decade, the Doan family business, the Missouri Star Quilt Company in tiny Hamilton, Missouri, has grown from Jenny's corner shop—with one quilting machine and two bolts of fabric for sale in the back—to become the largest supplier of pre-cut quilting fabric in the headquarters of Jenny's world-famous YouTube tutorial videos. Jenny is now giving her fans, the business world, and moms of all ages (and grandmas too!) what they've been asking for: the full story of her journey, from her humble beginnings as a homeschooling mom, to founding MSQC in her fifties, through the remarkable success and inspiration she's so well-known for today. In this book, you'll learn: How she and her beloved husband, Ron, raised seven children on a shoestring budget— and had fun doing it; How, after a string of bad luck, the family made a prayer-based decision to leave California behind and start over again in rural Missouri, even though they had no place to live, no jobs lined up, and no idea how they were going to make it; How Jenny, Ron and their children worked side-by-side to patch together a family home out of a crumbling shell of a farmhouse; And how their faith, hard work, and generosity not only carried them through the hard times, but led directly to the success of the Missouri Star Quilt Company. *How to Stitch an American Dream* will make you laugh, cry, say “bless your heart.”

Twentieth Century History For Dummies May 26 2022 The 20th Century brought revolutionary changes to our world and our lives: the human population of the world tripled, space travel became reality, two world wars and a host of other conflicts were fought, and huge advances in science, technology and communication resulted in the globalised world we know today. Enormous steps were made in wiping out widespread discrimination, from the women's suffrage movement leading to women's right to vote in western countries, to the civil rights movement in the US challenging racial segregation. The political landscape has provided lots of excitement, with charismatic and scandalous presidents in the White House, the first female prime minister in the UK, dictators working to various manifestoes across the world, the Middle East conflict and the changing balance of political

and economic “superpowers”. Technological advances have resulted in nigh on universal adoption and dependence on automobiles, computers, mobiles and other wireless technology. The exponential rate at which technology is evolving is one of the variables that make the twentieth century so fascinating. All this and much, much more happened in a mere one hundred years - where did we find the time to do so much?! Twentieth Century History For Dummies tells all...

Spaldeen Dreams Jan 22 2022 As a kid in Brooklyn, the Spaldeen was a big part of my childhood. My friends and I spent endless hours playing with this little pink ball while dreaming of becoming the next Joe DiMaggio or Ted Williams. Any kid who could hit a Spaldeen "two sewers" was among the first picked when we chose up sides for stickball. I guess those "Spaldeen Dreams" never came true for most of us, but along the way we were creating wonderful memories of growing up in Brooklyn during the 1950's. One in seven Americans can trace their roots back to Brooklyn. And if you asked them, I'd bet not many would choose to trade their childhood on the streets of Brooklyn for any other place in the world.
