Just as a home's foundation should be built to stand the test of time, so, too, should the furniture, objects, and elements of our rooms speak to an enduring sense of beauty and comfort. They should outlast trends and our loving day-to-day use. But how does one recognize quality and judge whether something is well made? Christiane Lemieux set out to answer this question by interviewing the world's greatest experts. Weaving together the insights and guidance of dozens of wallpaper and paint specialists, textile fabricators, accessories artisans, and interior designers, Lemieux has curated an unparalleled education in recognizing the hallmarks of timeless, heirloom-quality pieces. Hundreds of elegant home interiors—both iconic examples from the past and stunning residences today--represent the range of luxurious and customized environments that can be created with fine décor.

Practical Aspects of Declarative Languages Jun 17 2021 Declarative languages build on sound theoretical bases to provide attractive frameworks for application development. These languages have been succe- fully applied to a wide variety of real-world situations including database m- agement, active networks, software engineering, and decision-support systems. New developments in theory and implementation expose fresh opportunities. At the same time, the application of declarative languages to novel problems raises numerous interesting research issues. These well-known questions include scalability, language extensions for application deployment, and programming environments. Thus, applications drive the progress in the theory and imp- mentation of declarative systems, and in turn bene?t from this progress. The International Symposium on Practical Applications of Declarative L- guages (PADL) provides a forum for researchers, practitioners, and implementors of declarative languages to exchange ideas on current and novel application - eas and on the requirements for e?ective use of declarative systems. The fourth PADL symposium was held in Portland, Oregon, on January 19 and 20, 2002.

Car Crash Jan 25 2022 In the aftermath of a traumatic event, a young man navigates small-town gossip, grief and recovery amidst a culture of toxic masculinity. "A heart-soaring act of literary bravery," Car Crash is a hopeful, raw coming-of-age story for our times (Trent Dalton). "Bruisingly insightful."—The Guardian • "Delivers from the first arresting page."—Inside Story • "Moving, lyrical, warmly told and very funny."—Brooke Davis, author of Lost & Found • "Shines with a fierce intelligence."—Kristina Olsson, author of Shell Why did he get to live, and not them? This question has plagued Lech Blaine ever since he was a teenager, when he got into a car that never arrived at its destination. Of his crew of friends who were in the car, Blaine was the only passenger who made it out unscathed. In the aftermath of the accident that sent shockwaves through his small town, Blain was thrust into the local spotlight, fielding questions from journalists, police, and feeling pressure from his grief in public and on social media. In a community where men were expected to be strong and silent, Blaine felt that he had no one to turn to with his complicated emotions. In Car Crash, Blaine offers an intimate, brave account of what it's like to survive a tragedy that others didn't—and a moving portrait of a young person struggling to define his own masculinity. Blaine was raised to believe that being masculine meant projecting toughness, stoicism, and dominance, and this belief leads him to alcohol and disordered eating to cope with his pain. But as Blaine finally learns to open up with family, friends, and a therapist, he comes to realize the meaning of true strength, and the power of vulnerability to bring hope and healing. "Some books just have to be written. And some books just have to be read."—Trent Dalton, author of Boy Swallows Universe
