The Everything Guide to Understanding Socialism Jul 07 2020 "Democracy is the road to socialism." --Karl Marx Socialism was one of the formative forces of the modern world, and its complex history stretches back nearly three centuries. But what, exactly, does socialism mean? This informative and impartial guide takes you through socialism's origins to its contemporary interpretations, covering: Socialism's founders, including Sir Thomas More, Karl Marx, and Friedrich Engels Types of socialism, such as Maoism, syndicalism, communism, and green socialism Basic constructs and beliefs, and current misconceptions Socialism's impact on America, including the Red Scare, the Catholic Worker Movement, and the Cold War Featuring an unbiased but comprehensive view of this controversial theory, The Everything Guide to Understanding Socialism is the ultimate resource if you want to learn more about an age-old concept turned modern-day political firestorm.

Shoulder to Shoulder? Nov 30 2019 How did organized labor in the United States react to the Mexican Revolution, and what was the effect of that reaction? Gregg Andrews shows that Samuel Gompers and the American Federation of Labor significantly helped to shape United States policy toward revolutionary nationalist movements in Latin America. Between 1910 and 1924 AFL leaders followed a complex logic that led them to support Mexican workers and yet contribute to Mexico's economic dependence on the United States. The interplay between progressive forces within the AFL--especially trade-union Socialists--and American corporatist elements is a principal focus of this revealing study. Gompers's internationalist policies and his efforts to manipulate U.S. officials, investors in Mexico, and other labor elements while they in turn manipulated him, are an important key to understanding the ongoing relationship between the labor movement and actions of the United States in Central America. How did organized

labor in the United States react to the Mexican Revolution, and what was the effect of that reaction? The Rough Guide to Berlin Jan 31 2020 The Rough Guide to Berlin is the definitive guide to this extraordinary city with its fascinating historical sites, world-class museums, cutting edge galleries and architecture and pulsating nightlife. It will guide you through Germany's capital with reliable information and a clearly explained background on everything from the enduring Reichstag to eastern Berlin's cultural scene. Whether you're looking for great places to eat and drink or inspiring accommodation and the most exciting places to party, you'll find the solution. Accurate maps and comprehensive practical information help you get under the skin of this dynamic city, whilst stunning photography make The Rough Guide to Berlin your ultimate travelling companion. Make the most of your trip with The Rough Guide to Berlin. Now available in epub format.

The Conservative Century Jul 31 2022 This concise history focuses on the development of American conservatism in the twentieth century up to the present. Gregory L. Schneider traces the course of a once-reactionary movement opposed to progressive reform and the New Deal and describes how it came to advance alternative policies and programs that revolutionized the shaping of domestic politics, foreign policy, and economic policy. Along the way he profiles such influential thinkers as

William F. Buckley, Frank Meyer, Henry Regnery, and Barry Goldwater. He also details how the decline of liberalism after the 1960s helped conservatives gain political power, and how their energized activism and organization culminated in the election of Ronald Reagan in 1980. Schneider also describes how the years since the Reagan Revolution have been decidedly mixed for American conservatives.

Assassination, Politics, and Miracles Sep 01 2022 Annotation An in-depth examination of the event that precipitated the complete domination of Restoration politics by the Royalists and ultimately convinced millions of French citizens to support Louis XVIII and the Bourbon monarchy. On 13 February 1820 the Duke of Berry, the only Bourbon prince capable of siring an heir, was assassinated. Seven months later the Duchess of Berry gave birth to a boy, the Duke of Bordeaux, and the Bourbon lineage was saved. The boy was immediately nicknamed "the miracle child." The Duke's assassination and the birth of his son gave rise to the Royalist Reaction of 1820, a ten-month period that forever altered France's political landscape. This remarkable story provides the backdrop for David Skuy's analysis of the Royalist Reaction and its place in the history of the French Restoration. Skuy argues that the Royalist Reaction was the product of two divergent forces: historical echoes of the French Revolution and the Napoleonic Empire and the psychological consequences of the assassination, and the miracle child. Skuy discusses Restoration political theory and the development of modern political parties. He follows the strategems of anti-royalist extremists plotting to overthrow the Bourbon regime, and details the complexities and intrigues that characterized the royal court and parliament. Skuy reveals how the assassination and the birth of the miracle child triggered a popular Royalist Reaction that changed millions of French citizens from passive observers into ardent royalists.

Edmund Burke Dec 24 2021 This is the first full, scholarly biography of Burke for over a generation, to be completed in two volumes. The first volume covers the years between 1730-1784, and describes his Irish upbringing and education, early writing, and his parliamentary career throughout the momentous

years of the American War of Independence.

Nationalism, Revolution and Guided Democracy in Indonesia Oct 02 2022

Mass Movements in Darwinist, Freudian and Marxist Perspective Sep 20 2021 This study tracks the social construction of the new discipline of 'crowd' or 'mass' psychology in Europe over a lifetime and proceeds with an analysis of the influential theorists from Great Britain, Austria-Hungary and Germany between 1900 and 1933: Trotter, Freud, and Reich. The decades when these studies on the mass were published, were dominated by a gradual drift toward world war, followed by communist revolution and fascist reaction. English-language publications about them often erase or misunderstand this history to this very day even though they are both theoretically important and original, and merits serious consideration. Book jacket.

The Age of Revolution Nov 22 2021

Reader's Guide to British History Sep 28 2019 The Reader's Guide to British History is the essential source to secondary material on British history. This resource contains over 1,000 A-Z entries on the history of Britain, from ancient and Roman Britain to the present day. Each entry lists 6-12 of the best-known books on the subject, then discusses those works in an essay of 800 to 1,000 words prepared by an expert in the field. The essays provide advice on the range and depth of coverage as well as the emphasis and point of view espoused in each publication.

Revolution and Reaction May 29 2022

Explains how bold efforts at profound progressive change provoked a powerful reactionary backlash that led to the imposition of brutal, regressive dictatorships.

Austria and the Papacy in the Age of Metternich: Revolution and reaction, 1830-1838 Jun 29 2022

This study deals with the relationship between the Austrian Empire and the Papacy during the four decades when Metternich guided Habsburg foreign policy. For Metternich, relations with Rome were of major significance for his lifelong struggle to defend the Austrian Empire and the Restoration Order against the revolutionary challenge, as well as for his Italian policy and the domestic affairs of the Empire. His downfall in 1848 was the end result of the sequence of events initiated by the election of Pope Pius IX in 1846 and the ultimate failure of his Papal policy. For Italy, Austro-Papal relations were of great consequence because of their intersection at several key points with the course of the Risorgimento, whose developments they helped to shape. - Jacket flap.

OCR GCSE Modern World History Revision

Guide 2nd Edition Jul 19 2021 Succeed in OCR GCSE Modern World History with this active and effective approach to revision. - All the key content of the OCR course is presented in just the right amount of detail for revision. - Revision tasks are provided for every topic to ensure you remember and understand it - Exam Practice and Exam tips help you apply what you are learning to exam style questions - Comment boxes guide you towards possible viewpoints on the key issues - reaching your own view and being able to support it is a good way to boost your grade

1774 Apr 27 2022 From one of our most acclaimed and original colonial historians, a groundbreaking book tracing the critical "long year" of 1774 and the revolutionary change that took place from the Boston Tea Party and the First Continental Congress to the Battles of Lexington and Concord. A WALL STREET JOURNAL BEST BOOK OF THE YEAR In this masterly work of history, the culmination of more than four decades of research and thought, Mary Beth Norton looks at the sixteen months leading up to the clashes at Lexington and Concord in mid-April 1775. This was the critical,

and often overlooked, period when colonists traditionally loyal to King George III began their discordant "discussions" that led them to their acceptance of the inevitability of war against the British Empire. Drawing extensively on pamphlets, newspapers, and personal correspondence, Norton reconstructs colonial political discourse as it took place throughout 1774. Late in the year, conservatives mounted a vigorous campaign criticizing the First Continental Congress. But by then it was too late. In early 1775, colonial governors informed officials in London that they were unable to thwart the increasing power of local committees and their allied provincial congresses. Although the Declaration of Independence would not be formally adopted until July 1776, Americans had in effect "declared independence" even before the outbreak of war in April 1775 by obeying the decrees of the provincial governments they had elected rather than colonial officials appointed by the king. Norton captures the tension and drama of this pivotal year and foundational moment in American history and brings it to life as no other historian has done before.

An Historical and Moral View of the Origin and Progress of the French Revolution Jun 17 2021

In addition to her works on feminist thought and the education of women, Wollstonecraft also wrote historical texts such as this work dedicated to the French Revolution and its effects throughout Europe.

The Psychology of Revolution Jan 25 2022

The war of the American Revolution Aug 08 2020

Chain Reaction Oct 22 2021 Rachel Scott and her killer Eric Harris both talked about starting a "chain reaction." Eric used violence to kill and destroy at Columbine High School. But Rachel chose another path. In a personal creed she wrote one month before her death in the Columbine tragedy, she explained her conviction that if one person goes out of his or her way to show compassion, it will start a world-changing chain reaction of kindness. For Rachel, this was a solemn calling. And now her father, Darrell Scott, is carrying on her crusade by challenging people of all ages to commit themselves to creating a revolution of compassion that can make a real difference in our troubled world. Chain Reaction spells out this challenge in

compelling detail, providing moving examples of practical compassion and giving illustrations from Rachel's life and journals.

The Fourth Industrial Revolution Feb 23 2022 World-renowned economist Klaus Schwab, Founder and Executive Chairman of the World Economic Forum, explains that we have an opportunity to shape the fourth industrial revolution, which will fundamentally alter how we live and work. Schwab argues that this revolution is different in scale, scope and complexity from any that have come before. Characterized by a range of new technologies that are fusing the physical, digital and biological worlds, the developments are affecting all disciplines, economies, industries and governments, and even challenging ideas about what it means to be human. Artificial intelligence is already all around us, from supercomputers, drones and virtual assistants to 3D printing, DNA sequencing, smart thermostats, wearable sensors and microchips smaller than a grain of sand. But this is just the beginning: nanomaterials 200 times stronger than steel and a million times thinner than a strand of hair and the first transplant of a 3D printed liver are already in development. Imagine "smart factories" in which global systems of manu-

facturing are coordinated virtually, or implantable mobile phones made of biosynthetic materials. The fourth industrial revolution, says Schwab, is more significant, and its ramifications more profound, than in any prior period of human history. He outlines the key technologies driving this revolution and discusses the major impacts expected on government, business, civil society and individuals. Schwab also offers bold ideas on how to harness these changes and shape a better future—one in which technology empowers people rather than replaces them; progress serves society rather than disrupts it; and in which innovators respect moral and ethical boundaries rather than cross them. We all have the opportunity to contribute to developing new frameworks that advance progress.

The Expanding Blaze Dec 12 2020 "A major intellectual history of the American Revolution and its influence on later revolutions in Europe and the Americas, the Expanding Blaze is a sweeping history of how the American Revolution inspired revolutions throughout Europe and the Atlantic world in the eighteenth and nineteenth centuries. Jonathan Israel, one of the world's leading historians of the Enlightenment, shows how the radical ideas of American founders such as Paine, Jefferson, Franklin, Madison, and Monroe set the pattern for democratic revolutions, movements, and constitutions in France, Britain, Ireland, the Netherlands, Belgium, Poland, Greece, Canada, Haiti, Brazil, and Spanish America. The Expanding Blaze reminds us that the American Revolution was an astonishingly radical event--and that it didn't end with the transformation and independence of America. Rather, the revolution continued to reverberate in Europe and the Americas for the next three-quarters of a century. This comprehensive history of the revolution's international influence traces how American efforts to implement Radical Enlightenment ideas--including the destruction of the old regime and the promotion of democratic republicanism, self-government, and liberty--helped drive revolutions abroad, as foreign leaders explicitly followed the American example and espoused American democratic values. The first major new intellectual history of the age of democratic revolution in decades, The

Expanding Blaze returns the American Revolution to its global context."--

The Complete Idiot's Guide to World History, 2nd Edition Mar 03 2020 Puts world events in a context that is relevant for today's students and casual readers Updated to include the significant events from the past several years

Asia: Case Studies in the Social Sciences - A Guide for Teaching Apr 15 2021 The material in this study is covered by Myron L. Cohen on religion and family organization in China; John R. Bowen on family, kinship, and Islam in Indonesia; Robert W. Hefner on hierarchy and stratification in Java; and Nancy Rosenberger on gender roles in Japan. Further material is provided by William W. Kelly on rural society in Japan; Theodore C. Bestor on urban life in Japan; Stephen R. Smith on the family in Japan; Doranne Jacobson on gender relations in India; Lawrence A. Babb on religion in India; Owen M. Lynch on stratification, inequality, and the caste system in India; Laurell Kendall on changing gender relations in Korea; Andrew G. Walder on comparative revolution in China and Vietnam, Maoism, and the sociology of work in China and Japan; Moni Nag on the comparative demography of China, Japan, and India; and Helen Hardacre on the new religions of Japan. Other contributors offering information through case studies are Hiroshi Ishida on stratification and mobility in Japan; Robert C. Liebman on work and education compared in Japan and the US; Joseph W. Elder on education, urban society, urban problems, and industrial society in India; Andrew J. Nathan on totalitarianism, authoritarianism, and democracy in China; Jean C. Oi on mobilisation and participation in China; Edwin A. Winckler on political development in Taiwan; Carl H. Lande on political parties and representation in the Philippines ; Clark N. Neher on political development and political participation in Thailand; and Benedict R. O'G. Anderson on political culture, the military, and authoritarianism in Indonesia. The final chapters of this work include studies by Stephen Philip Cohen on the military in India and Pakistan; Paul R. Brass on democracy and political participation in India; T.J. Pempel on Japanese democracy and political culture, political parties and representation, and bureaucracy in Japan; Han-kyo Kim on political development in South

Korea; and Thomas G. Rawski on the economies of China and Japan.

Anger, Revolution, and Romanticism Oct 29 2019 The Romantic age was one of anger and its consequences: revolution and reaction, terror and war. Andrew M. Stauffer explores the changing place of anger in the literature and culture of the period, as Englishmen and women rethought their relationship to the aggressive passions in the wake of the French Revolution. Drawing on diverse fields and discourses such as aesthetics, politics, medicine, and the law, and tracing the classical legacy the Romantics inherited, Stauffer charts the period's struggle to define the relationship of anger to justice and the creative self. In their poetry and prose, Romantic authors including Blake, Coleridge, Godwin, Shelley, and Byron negotiate the meanings of indignation and rage amidst a clamorous debate over the place of anger in art and in civil society. This innovative book has much to contribute to the understanding of Romantic literature and the cultural history of the emotions.

A Crisis of Peace Apr 03 2020 On March 15, 1783, General George Washington addressed a group of angry officers in an effort to rescue the American Revolution from mutiny at the highest level. After the British surrender at Yorktown, the Revolution blazed on, and as peace was negotiated in Europe, grave problems surfaced at home. The government was broke, paying its debts with loans from France. Political rivalry among the states paralyzed Congress. The army's officers, encamped near Newburgh, NY, and restless without an enemy to fight, brooded over a civilian population seemingly indifferent to their sacrifices. The result was the Newburgh Affair, a mysterious event in which Continental Army officers, disgruntled by a lack of pay and pensions, may have collaborated with nationalist-minded politicians such as Alexander Hamilton, James Madison, and Robert Morris to pressure Congress and the states to approve new taxes and strengthen the central government. A Crisis of Peace provides a fresh look at the end of the American Revolution while speaking to issues that concern us still: the fragility of civil-military relations, how even victorious wars end ambiguously, and what veterans and civilians owe each other.

Russian Revolution of 1917: The Essential Reference Guide Jun 05 2020 Combining reference entries and examination of primary documents from the Russian Revolution, this book gives students a better understanding of how and why political forces fought to reshape the Russian empire 100 years ago—and provides keen insights into the Soviet Union that resulted.

- Provides a detailed history of the Russian Revolution, addressing events from the abdication of Czar Nicholas II to the Bolshevik Revolution
- Gives readers a more complete understanding of how the Bolsheviks fought during the Civil War to maintain and solidify the success of their revolution
- Includes a substantial collection of primary documents that offers keen insights into what key actors thought and how these individuals behaved during the historical period

Hanoverian Britain: Oxford Bibliographies Online Research Guide Jul 27 2019 This ebook is a selective guide designed to help scholars and students of the ancient world find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books, chapters, and journal articles to online archives, electronic data sets, and blogs. Written by a leading international authority on the subject, the ebook provides bibliographic information supported by direct recommendations about which sources to consult and editorial commentary to make it clear how the cited sources are interrelated. This ebook is just one of many articles from Oxford Bibliographies Online: Atlantic History, a continuously updated and growing online resource designed to provide authoritative guidance through the scholarship and other materials relevant to the study of Atlantic History, the study of the transnational interconnections between Europe, North America, South America, and Africa, particularly in the early modern and colonial period. Oxford Bibliographies Online covers most subject disciplines within the social science and humanities, for more information visit www.oxfordbibliographies.com.
