you look at—and listen to—birds in a whole new way! Birdsong by the Seasons is a celebration of birdsong from January through December. The stories begin with a pileated woodpecker on New Year's Day; they unfold through the year, covering Florida's limpkins and scrub-jays in February, prairie birds in May, scarlet tanagers in July, and a chorus of singing birds in Massachusetts just before Christmas. With this book, the acclaimed author of *The Singing Life of Birds*—a winner of the John Burroughs Medal—provides a unique experience: with his gentle guidance, the pairing of

sonograms with the audio makes birdsong accessible and fascinating. This Kindle ebook contains embedded audio files. This audio content will only play on Kindle Fire tablets (excluding the Kindle Fire 1st Generation) and iPad, iPhone, and iPod touch devices. It cannot be accessed on Kindle e-readers (including the Kindle, Kindle Paperwhite, Kindle Touch, and Kindle Voyage) or on Kindle reading apps on other tablets or computers. *Worlds of Music: An Introduction to the Music of the World's Peoples, Shorter Version* Aug 20 2021 This shorter version of the best-selling WORLDS OF

MUSIC provides much of the authoritative coverage of the comprehensive version in a format that's accessible to students without any background or training in music. Using a case-study approach, the text presents in-depth explorations of music of several cultures from around the world. The authors, all ethnomusicologists working in their fields of expertise, base their discussions of music-cultures on their own fieldwork, and give students a true sense of both the music and culture that created it. General editor, Jeff Todd Titon, has written the text's opening chapter that introduces

students to ethnomusicology and relates each chapter's music heard on the accompanying CDs to the fundamentals of music in a worldwide context. The text concludes with a chapter that invites students to participate by undertaking a fieldwork research project that increases a student's understanding of music in daily life. The supplementary three-CD set works hand in hand with the authors' prose, providing students with access to a wide range of music-cultures and include authentic recordings from the authors' fieldwork. Leading off is the long-standing jewel in the WORLDS OF

MUSIC crown -- James Koetting's magnificent recording of postal workers canceling stamps at the University of Ghana post office. A Western-sounding hymn tune performed against African rhythms, this piece, more than any other, lets the student hear contrasting music-cultures. "Mixing and
mastering, the two
final steps in the
complex process of
sound engineering,
require both artistic
finesse and
technical facility.
Even the slightest
difference in the
way a sound is
processed can lead
to a shift in the
overall aesthetic of
a piece, and so
sound engineers
must work towards

an understanding of
sound engineering
that is particularly
oriented towards
the artistic and

to create effective
mixes, a sound
engineer must
maintain a distinct

globe and highlighting the sheer diversity to be experienced in the world of music. At the same time, the text illustrates the often profound ways through which a deeper exploration of these many different communities can reveal overlaps, shared horizons, and common concerns in spite of and, because of, this very diversity. The new seventh edition introduces five brand new chapters, including chapters by three new contributors on the Middle East, South Asia, and Korea, as well as a new chapter on Latin America along with a new introduction written by Timothy Rommen. General

updates have been made to other chapters, replacing visuals and updating charts/statistics. Excursions in World Music remains a favorite among ethnomusicologists who want students to explore the in-depth knowledge and scholarship that animates regional studies of world music. A companion website is available at no additional charge. For instructors, there is a new test bank and instructor's manual. Numerous student resources are posted, including streamed audio tracks for most of the listening guides, interactive quizzes, flashcards, and an interactive map with pinpoints

of interest and activities. An ancillary package of a 3-CD set of audio tracks is available for separate purchase.

this book revolves around the design and development of technologies and interfaces that provide enhanced physical, sensorial and cognitive capabilities: "Assistive Augmentation". The Assistive Augmentation community convened at an interdisciplinary workshop at the 2014 International Conference on Human Factors in Computing Systems (CHI) in Toronto, Canada. The community is comprised of researchers and practitioners who work at the junction of human-computer interaction, assistive technology and human augmentation. This edited volume,

which represents the first tangible outcome of the workshop, presents stimulating discussions on the challenges of Assistive Augmentation as examined through case studies. These studies focus on two main areas: (1) Augmented Sensors and Feedback Modalities, and (2) Design for Assistive Augmentation. Designed for nonmajors, this brief text explores the development of jazz, from its 19th century roots in ragtime and blues, through swing and bebop, to fusion and contemporary jazz styles. Unique in its up-to-date coverage, one-third of ESSENTIAL JAZZ is devoted to performers of the 1960s through present-day performers. The text's flexible organization and clear, interesting presentation are designed to appeal to students with

little or no music background.

Accessible, informative Listening Guides provide a rich sociocultural context for each selection, giving both newcomers and aficionados a true feel for the vibrant, ever-changing sound of jazz.
