It has been the purpose of BICRES I (from the early beginnings to 1600), published in 1994, to bring together already available bibliographical information with the more recent research findings, scattered in many places, books and articles. BICRES II (covering the 1601–1700 period) followed in 1999 and BICRES III (including period 1701-1800) was published in 2005. Now, the fourth volume, arranged according to the same principles as those guiding the preceding volumes and covering the years from 1801 to 1860, has become available. Years of research in the major libraries of Spain and other European countries have gone into this new bibliography and relative sources of the Americas have also been covered, in order to offer — in an as exhaustive as possible fashion — a description of all Spanish grammars and dictionaries, histories of the Spanish language as well as studies devoted to particular facets of its evolution during the years 1801-1860. BICRES IV brings together in chronological order more than 3,279 titles. Access to the bibliographical information is facilitated by several detailed indexes, such as a short title index, a listing of printers, publishers and places of production, and an author index.

Four Dichotomies in Spanish: Adjective Position, Adjectival Clauses, Ser/Estar, and Preterite/Imperfect May 29 2020 Examining four dichotomies in Spanish, this book shows how to reduce the six to ten rules common in textbooks for each contrast to a single binary distinction. That distinction is a form of totality vs. part, easier to see in some of the dichotomies, but present in all of them. Every chapter is example-driven, and many of those examples come from writing by students. Readers can test out for themselves the explanation at work in the examples provided. Then, those examples are explained step by step. In addition to examples from writing by college students, there are examples from RAE (Real Academia Española), from scholars, from writers, from Corpes XXI (RAE), from the Centro Virtual Cervantes, and from the Internet. Many of those examples are presented to the reader as exercises, and answers are provided. This book was written for teachers of Spanish as a second language (L2) and for minors or majors of Spanish as an L2. It will also benefit teachers and learners of other L2s with some of these dichotomies.
