*The Light Years* Sep 13 2021 This “dazzling” novel follows a family of English aristocrats as their country teeters on the brink of World War II (Penelope Fitzgerald). As war clouds gather on the distant horizon, Hugh, Edward, and Rupert Cazalet, along with their wives, children, and loyal servants, prepare to leave London for their annual pilgrimage to the family’s Sussex estate. There, they will join their parents, William and Kitty, and sister, Rachel, at Home Place, the sprawling retreat where the three brothers hope to spend an idyllic summer of years gone by. But the First World War has left indelible scars. Hugh, the eldest of his siblings, was wounded in France and is haunted both by recurring nightmares of battle and the prospect of another war. Edward adores his wife, Villy, a former dancer searching for meaning in life, yet he’s incapable of remaining faithful to her. Rupert desires only to fulfill his potential as a painter, but finds that love and art cannot coexist. And devoted daughter Rachel discovers the joys—and limitations—of intimacy with another woman. A candid portrait of British life in the late 1930s and a sweeping depiction of a world on the brink of war, *The Light Years* is a must-read for fans of *Downton Abbey*. Three generations of the Cazalet family come to unforgettable dramatic life in this saga about England during the last century—and the long-held values and cherished traditions that would soon disappear forever.

How Agriculture Made Canada Dec 24 2019 Nineteenth-century farm families needed land for the next generation. Their quest shaped agricultural settlement across Canada. This overview of rural history in Quebec, Ontario, and the Prairies provides a new perspective on the ways in which agriculture and the family farm were central to the country's expansion and essential to understanding social, political, and economic changes. *How Agriculture Made Canada* shows how differences between the agricultural development of Quebec and that of Ontario had a decisive influence on the settlement of the Prairies. Peter Russell demonstrates that farming families eventually ran out of land against the edges of the St Lawrence lowlands. While Quebec-based Habitants reached their region's limits earlier, Ontario encouraged people to migrate west. Russell argues that the thousands of relocated Ontario farmers changed Manitoba's bilingual openness to an exclusively English-speaking province that then assimilated East European arrivals. Thus, if not for the agricultural crises in the Canadas, Manitoba might have been at least as francophone as anglophone. The first comprehensive synthesis on the history of Canadian farming in decades, *How Agriculture Made Canada* reveals the lasting impact that nineteenth-century

agricultural changes have had on the nation.

Hijab and the Republic Jan 05 2021 The hijab is arguably the most discussed and controversial item of women's clothing today. It has become the primary global symbol of female Muslim identity for Muslims and non-Muslims alike and is the focus of much debate in the confrontation between Islam and the West. Nowhere has this debate been more acute or complex than in France. In *Hijab and the Republic*, Bronwyn Winter provides a riveting account of the controversial 2004 French law to ban Islamic headscarves and other religious signs from public schools. While much has been written on the subject, Winter offers a unique feminist perspective, carefully delineating its political and cultural aspects. Drawing on both scholarly literature and popular commentary, she examines the headscarf debate from its inception in 1989 through fluctuations in its intensity over the 1990s to its surging significance in the wake of 9 / 11 and the consequent shift in global politics.

**The Goose Fritz** Jan 25 2020 A man obsessively investigates the mysteries of his family’s past in this “brave and unflinching” novel by the acclaimed Russian author of *Oblivion* (*The Financial Times*). Sergei Lebedev’s first two novels, *The Year of the Comet* and *Oblivion*, established him as one of Russia’s most important contemporary novelists. Now he reaffirms that status with this third work of fiction. *The Goose Fritz* tells the story of a young Russian named Kirill, the sole survivor of a once numerous clan of German origin, who delves relentlessly into the unresolved past. When Kirill’s ancestor, Balthasar Schwerdt, migrated to the Russian Empire in the early 1800s, he brought with him the practice of alternative medicine. He was then taken captive by an erratic nobleman who supplied entertainment to Catherine the Great in the form of dwarves, hunchbacks, and magicians. Searches archives and cemeteries across Europe, Kirill’s investigation takes us through centuries of turmoil during which none of Schwerdt’s descendants can escape their adoptive country’s cruel fate. Illuminating both personal and political history, “Lebedev muses in Tolstoyan fashion about [how] the actions of distant ancestors can fix the destinies of people hundreds of years later” (*The Wall Street Journal*).
