Cracking the Case Method, Legal Analysis for Law School Success Jul 10 2020 For about 150 years, law schools have relied on the Case Method to teach the skills and art of legal analysis to first-year law students. Yet many students struggle academically, not due to lack of intellectual ability but because they are suddenly immersed in a unique and seemingly opaque educational process without receiving any explanation of what they should be trying to learn, much less how to learn it. Why do reading assignments consist of appellate court opinions? Why do professors rely on the Socratic Method? Why do law school classes so often leave students with more questions than answers? What do instructors look for when grading answers to essay exams? Why can law students know "all the rules," yet get poor grades? *Cracking the Case Method, 2d ed.*, provides concise and down-to-earth information on how to succeed in law school by answering these questions and many others. Students need to know what to study and how the opinions they read and class meetings relate to law school exams. This book provides an in-depth examination of these critical topics: The Case Method and its relationship to Socratic-style questioning and effective legal analysis. Semester-long strategies for learning how to "think like a lawyer" by getting the most out of reading opinions, attending classes, outlining, and preparing effectively for exams. How to read cases with a focus on legal issues, legal principles, and judges' rationales for adopting and applying those principles. How to prepare case briefs and use them to prepare for class. The major types of legal argument, with many illustrations drawn from actual cases. Using class discussions as opportunities to practice legal analysis, based on annotated excerpts from actual first-year class discussions. Preparing for exams by outlining course materials and practicing exam-taking skills. An approach for analyzing exam questions and writing effective exam answers that display legal analytical skills, with illustrations drawn from actual essay exam questions and annotated answers. This book provides indispensable information to anybody who is considering applying to law school, preparing for his or her 1L year, or who currently is in law school.

The Case of Misak Torlakian Jul 30 2019 "The Case of Misak Torlakian is about the trial of Misak Torlakian, an Armenian Ottoman subject, by the British Military Court, which took place at 10:00 a.m. on August 11, 1921, on the charge of murdering Bihbud Khan Jivanshir, Ex-Minister of interior of Azerbaijan, outside the Pera Palace Hotel in Constantinople (Istanbul) on July 18, 1921. The Case of Misak Torlakian is the twin of The Case of Soghomon Tehlirian. Both trials involved the murder of a tyrant, and both of the perpetrators were found not guilty. During both trials, history, theology, philosophy, physiology, psychology, and politics were invoked by both sides to sway the Military Judge in the case of Torlakian, and the Jury of Peers in the case of Tehlirian. Thus in addition to being landmark legal cases, these two trials reveal the prevailing mindsets and political strategies of Germans, Turks, Armenians and Azeris in the aftermath of WWI."--Back cover.
